What is the OcuSci™ Dry Eye Compress?
The OcuSci™ Dry Eye Hot/Cold Compress is recommended by eye doctors to provide deep penetrating moist heat treatment for instant relief of dry, itchy eyes.

The OcuSci™ Dry Eye Compress helps treat:
✓ Dry eye syndrome
✓ Meibomian gland dysfunction
✓ TMJ
✓ Sinus pressure, tension, stress, conjunctivitis and sties

New! The HydroHeat™ machine-washable cover delivers therapeutic heat and moisture longer than any other compress!

THREE STEPS TO HELP DRY EYE SYNDROME

1. OcuSci™ Dry Eye Compress - DAILY
2. MACULA2® OMEGA-3 (EE or TG) - 2 PER DAY
3. BioDrop MD® - preservative free eye drops and spray - AS NEEDED

Use Hot or Cold!
The OcuSci™ Dry Eye Compress is safe, effective and convenient:

- Just heat in the microwave for 20 seconds or in the oven for 4 minutes @240°F.
- Provides heat and moisture for 10 minutes.
- Machine-washable, wicking cover holds moisture longer than any other compress.
- Put in the freezer to treat swollen, puffy eyes.
- Washable and reusable for years.

*OcuSci™ is 30% heavier than the Bruder™ compress and will maintain its heat at 47° to 42° C and 100% RH for 10 minutes. The Bruder™ compress drops to less than 50% RH.

Antimicrobial and lasts for years, the OcuSci™ Dry Eye Compress will not support bacterial or fungal growth, unlike grain and seed products.
